

JAKAIRA

WEB IDENTITY MIGRATION STAGING · REVIEW V01

ENTERPRISE · B2B

Yerba JAKAIRA, inside your product.

Per-ton supply and ingredient partnerships for brands, co-packers and yerba mate startups worldwide. The same smoke-free-dried leaf — now an ingredient in your recipe.

Supply by the ton

Smoke-free-dried yerba in bulk, for brands and co-packers. Volumes, formats and per-ton pricing quoted on request, in line with plant scale.

Your recipe, our credit

Partnerships with brands using yerba as an ingredient. One condition: if you make your recipe public, you credit “yerba mate JAKAIRA” as the ingredient. Your product gains an origin story impossible to copy.

Open to the world

We work with yerba mate startups and brands from any country. If you are building something with yerba, let's talk.

WHY JAKAIRA

86.10 / 100

Silver Medal, Primer Mundial de la Yerba Mate 2026 — our pure leaf, entered as ILEXÁ

40.9%

Aqueous extract · UNA laboratory analysis

Smoke-free drying 120 women

Electric dryer — no wood smoke at the drying stage

Producers in the Atlantic Forest, Paraguay

What we do not claim: we publish no PAH figures, because we have not yet measured them. Sapecado — the 1–2 minute flash of direct flame every yerba mate on earth goes through — still uses open flame; we are moving it to indirect-fire drums. What we have removed is the barbacuá: hours to days of wood smoke, which is where the smoke compounds actually concentrate. An accredited-lab analysis is booked after the founder round closes and we will publish the result either way. EU reference (Reg. 2023/915), dried herbs: PAH4 not above 50 µg/kg · benzo(a)pyrene not above 10 µg/kg.

REAL CAPACITY

1 t / yr

Plant today

3 t / yr

With founder round

10 t / yr

Target, year 3

On request

Per-ton pricing

Pricing is quoted per project, based on volume, format and plant schedule. We do not promise volume we cannot ship.

HOW IT WORKS

01

Intro call

Your product, format and volumes; our plant schedule and quote.

02

Sampling & spec

Leaf samples, lab specs and the ingredient-credit terms.

03

Supply agreement

Per-ton contract, delivery calendar and co-branding assets.

THE INGREDIENT CREDIT

Every public recipe carries the line:

“made with yerba mate JAKAIRA”

Your product, our origin story — both grow.

Let's talk about your project.
